

Ripe Nursery School Chronicle

26.5.16

Last week...

The Big Class had a busy time making their dinosaur land. They collected natural materials and painted a scene for the dinosaurs. Sticks were collected to make some super dinosaur skeletons. During our phonics sessions, we have been re-capping some of the letters and sounds we covered earlier in the year. The children are greatly enjoying singing all of the Jolly Phonics songs! If this is new to you, more information can be found here:

<http://jollylearning.co.uk>

Frankie kindly brought in some sunflower seeds for his friends to plant; the children potted them up and have talked about what plants need to help them to grow. We will continue this work after half term. The Little Class have been busy investigating different sounds; they went on a walk outside with their beaters and tested them out on a variety of different surfaces, listening for the different sounds.

Next week...

We're looking forward to having everyone back next week! The big class will continue with their work on dinosaurs before moving on to some gardening work. The Little Class will continue their music work by investigating other instruments and will play and sing along to some familiar songs.

Thursday—General Election

We are hugely grateful to Jo (Guss' Mum) for allowing us to do a 'pop up Nursery School' at her house on Thursday so that we don't have to close. If your child is usually in on a Thursday and you are able to stay for the morning at Jo's, we would be very grateful. Please let Miss Kate know if you are available.

First Aid—Parent's Course

We still have some available spaces on this (Tuesday 6th June from 7pm till 9pm, £25 per person) Please email Miss Kate to reserve your place.

What's on

Future Dates:

Baby and toddler group: every Thursday 1.30-2.30pm

First Aid Course for Parents: Tuesday 6th June 7pm to 9pm

End of term/Sports Day/Leavers presentation and picnic: Friday 14th July
