

Ripe Nursery School Chronicle

5.5.16

Last week...

Despite it being a short week, we were still busy!

The Big Class had a great time showing each other their very clean teeth last week! Thank you to those who brought in toothbrushes, this went down very well and we've had requests to do it again, so toothbrushes and toothpaste are again welcome next week, in a named bag.

On Welly Wednesday we had fun collecting items on a walk and bringing them back to Nursery School to create a very special picture with them. Take a look next week!

Next week...

In the Big Class we will continue to look at teeth and will also be doing some physical challenges using the timer!

We will also be looking more closely at fossils next week.

The Little Class will be continuing their work on textures and will be checking on the progress of their seedlings.

Photos

Our photos were taken on Friday and the proofs for these will be arriving soon. Once you have yours you will be able to decide if you would like to place an order; we will let you know the deadline for orders once the proofs arrive.

What's on
